

CPA Exam Review Course Gets Enhancements for CPA Evolution. Easy on students.

ST. LOUIS, MO. – March 13, 2023

Becker Professional Education, a global leader in professional education and a part of Colibri Group announced the transition of their world-renowned CPA Exam Review Course in advance of expected changes in the exam blueprint as part the AICPA's Evolution project.

Becker announced that their new product will be released in fall 2023, with enhancements that include entirely new content, more live ways to learn, and an even more personalized learning experience for exam candidates. While the exact date is not yet being disclosed, Becker promises a significant enhancement to the student's learning journey, says Becker's President and CEO Ed Clark, *"We've invested over \$2,000,000 over the last eighteen months, to develop an entirely new CPA Exam Review experience."*

As part of Becker's transition plan, Becker committed that current students, and those who begin study before the product release, will have access to the new platform and tools, as well as the new content.

"We want students who have already started their prep to be confident that Becker has their back", said Becker's Senior Director of Product Development and Innovation, Angie Brown. *"When our new product is released later this year, we expect that current students will seamlessly transition into the new design, to continue their study journey."*

Becker just recently released their new Pass Guarantee which comes on the cusp of a 2022 enhancement called Exam Day ReadySM which helps guide students towards a proven methodology for exam success.
